Made Differently

Responsible game changers. Quality seekers. Stanley/Stella is a community of passionate individuals, driven by a common desire to reinvent fashion for a better world. Since our conception in 2012, we have made it our mission to produce impeccable garments, while building a transparent and sustainable fashion ecosystem.

Our thoughtful approach is reflected in the premium quality of our garments. We believe in the power of simplicity and aim to create refined pieces that we are proud to sell and wear. Each item in our collection allows the wearer to express their style, while never compromising their values and beliefs.

We also believe that there is strength in numbers, which is why we work exclusively with those who share our values. Together with our suppliers, partners, employees and customers, we form a community of like-minded individuals, driven by desire for innovation and change. Together, we are making this change happen, one ethically crafted garment at a time.

STANLEY/STELLA

There are four core values that reflect who we are, what we stand for, and what we strive for. They have guided us since the beginning of our journey, and continue to do so as we look to the future.

Innovation

Embracing the way forward.
Stanley/Stella is driven by innovation and our entrepreneurial spirit. We believe choosing the right partners empowers innovation. We are always experimenting to improve our products, our digital services, and our entire supply chain.

People

Committing to community.
Everything at Stanley/Stella is about people. It is our essence. From our suppliers and dealers to our employees and customers, we ensure everyone feels listened to and is treated with respect and dignity. We actively strive to create an ecosystem that feels positive and empowered.

Excellence

Inspiring ambition.
For you, as for us, every detail counts. We make no compromise when it comes to reaching for excellence. In every aspect of our business, we aim to surpass our own results. Our collections and actions should always raise the standards and change the perception of the textile industry.

Sustainability

Advocating for positive change.
Sustainability is at the core of our business culture. We are committed to continuously improving how we create and operate, from the cotton field to the collection, to how we manage our waste. We always act with transparency for people, our planet, and for society.

Responsible production supported by environmental standards & social memberships

We are certified by:

We are members of:

We select the most eco-friendly raw materials

Across our collections, we use GOTS certified organic cotton as well as GRS certified recycled cotton, GRS certified recycled polyester and GRS certified recycled nylon. Read more about our materials on page 264.

We collaborate with state-of-the-art factories

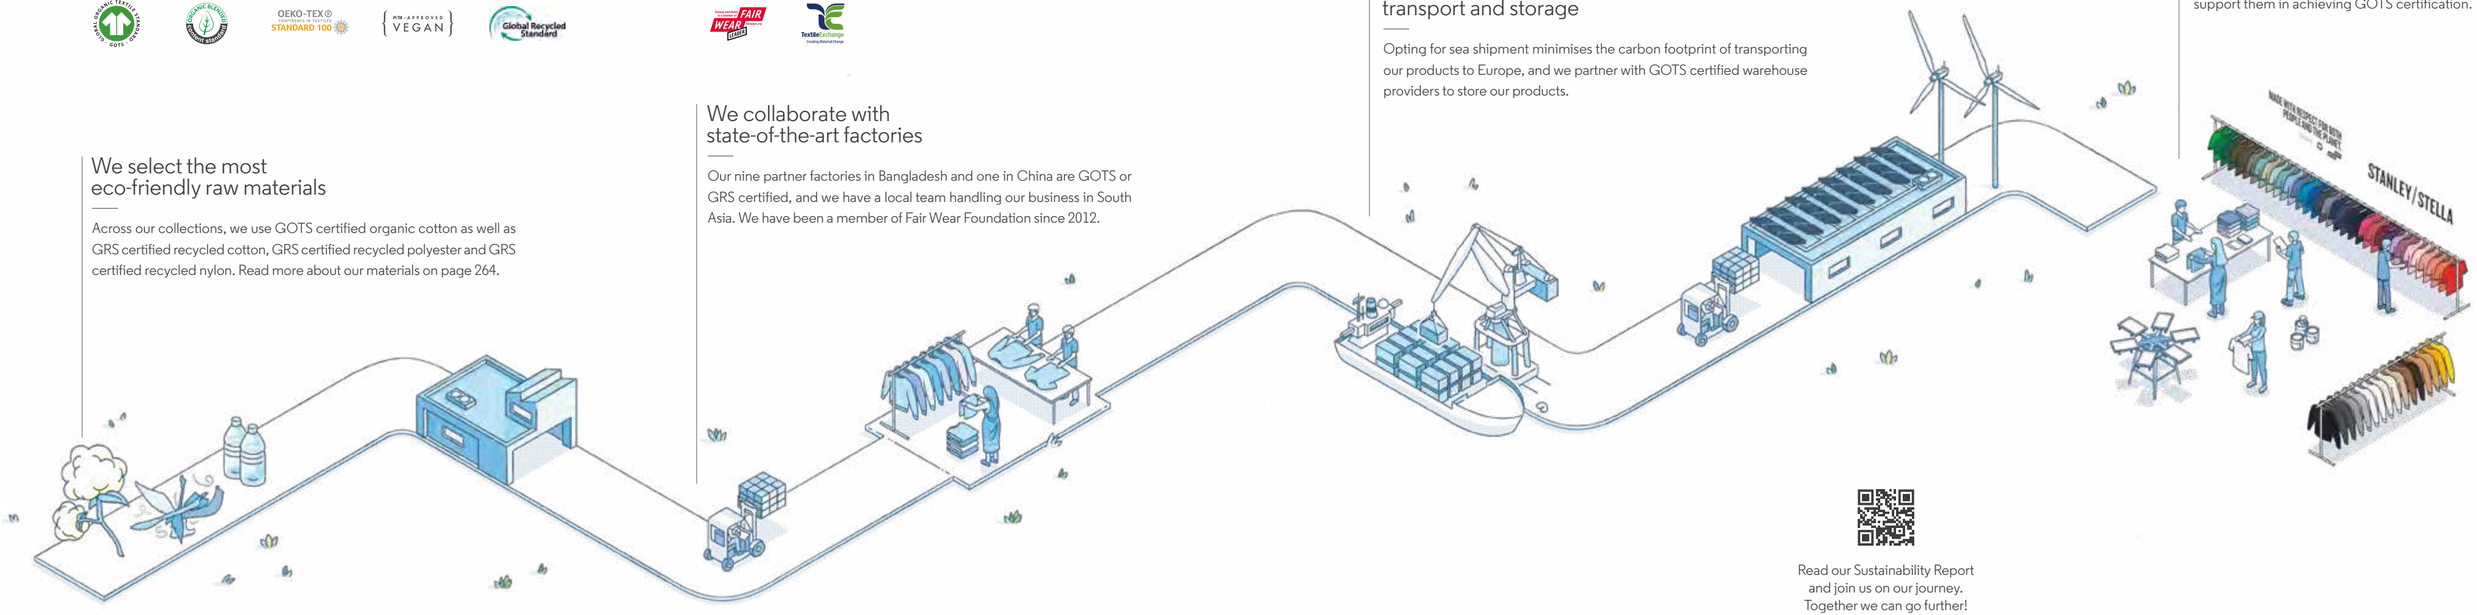
Our nine partner factories in Bangladesh and one in China are GOTS or GRS certified, and we have a local team handling our business in South Asia. We have been a member of Fair Wear Foundation since 2012.

We choose partners for sustainable transport and storage

Opting for sea shipment minimises the carbon footprint of transporting our products to Europe, and we partner with GOTS certified warehouse providers to store our products.

We team up with a dedicated distribution network

Our network of Official Dealers share our vision and values, and we encourage and support them in achieving GOTS certification.



Read our Sustainability Report and join us on our journey. Together we can go further!

Advocating for positive change

Tracing our materials

We strive for a maximum of traceability and transparency in our supply chain, both for the organic cotton and the recycled polyester we use. In addition to meeting the requirements of certifications like GOTS, OCS and GRS, we go one step further. For example, to ensure the quality of our organic cotton, we work with a local specialist who regularly visits farmers and ginners. We also perform regular random testing of our yarns. Read more about our certifications on page 266.

Toward a living wage

Our partners guarantee the legal minimum wage and fundamental legal requirements such as in-house childcare facilities, maternity leave and medical cover, but also offer additional benefits to their workers. We aim to close the gap between this legal minimum wage and a higher living wage in our partner factories. We invest part of our operational profit in projects aimed at improving the living standards of factory workers and their families.

Our carbon footprint

We believe in the power of community and the need to protect our planet. We are proud to be part of a growing coalition of countries, cities, and organisations who are contributing to achieving global carbon neutrality in line with the Paris Agreement. Our whole company is mobilised to measure and cut emissions across our entire value chain, always seeking new and better ways to keep delivering outstanding quality and service to our customers.

Urban Splash

Refreshingly different, reassuringly familiar. SS23 is all about seeing our urban environments from a new perspective and making the most of what they have to offer. Inspired by citizen-led outdoor swimming initiatives across Europe, it's a collection that seeks to bring people together and cultivate a sense of belonging.

Dive in and discover our SS23 Collection!

Zurich

Rich in tradition, Zurich's 'badi' culture transforms the city every summer, with dozens of river and lake baths offering refreshment and relaxation to urban dwellers and tourists alike. These inclusive natural public spaces are an inspiring example of how urban waterways can be successfully reclaimed and turned into an asset that improves wellbeing and quality of life in cities.

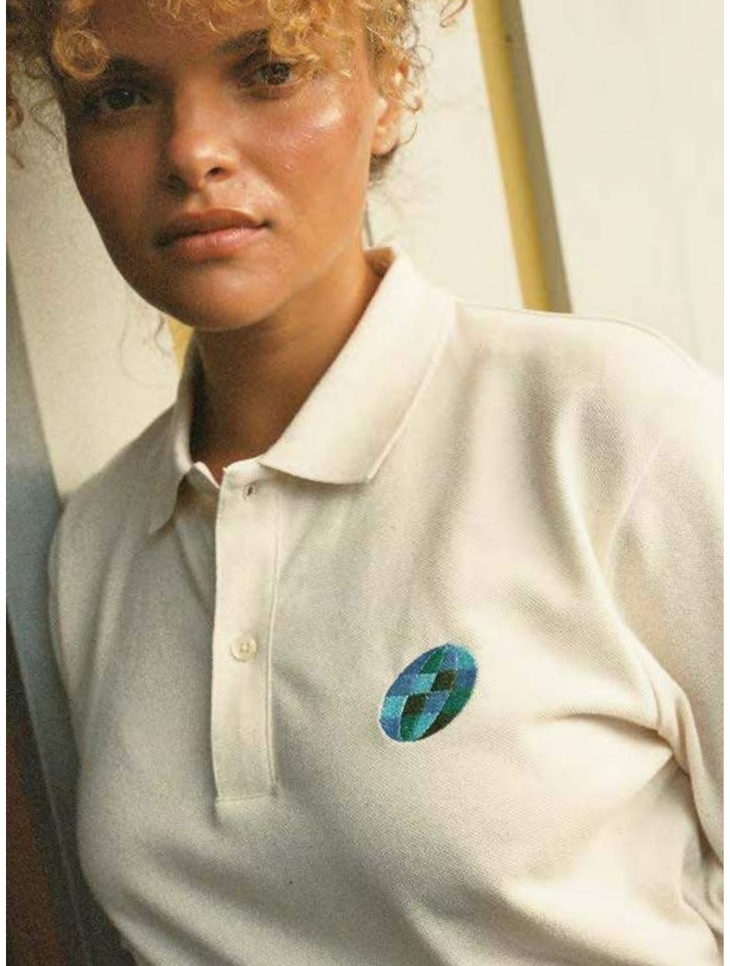
Designed for decoration

From the initial sketches to the final sewing, every Stanley/Stella garment is crafted with decoration in mind. Our thoughtful design, careful choice of raw materials and dyes, and superior garment finishing ensure we can offer the best blank apparel on the market. Plus, our dedicated team is always on hand to help you achieve outstanding results, every time.

→ Help protect the planet with eco-friendly ink. This Creator t-shirt in French Navy is screen printed using Cradle to Cradle ink, which contains no toxins and is certified as being safe for humans and the environment.

←↓ Combine techniques for an eye-catching result. Embroidery is a great choice for the perfectly crisp quote on the front of this Changer sweatshirt, while Direct to Film (DTF) printing makes the colourful artwork on the back really stand out.



←↑ Choose the right approach for the right result. For the small chest logo on this Prepster polo in Natural Raw, expert embroidery makes the colours really pop. Screen transfer is a practical choice for the single-colour work close to the side seam.

New print-ready polos

The only thing that beats a great polo is a great polo that shows off an eye-catching design, discreet logo, or corporate branding to perfection. From the swim team to the golf course, to the school gym kit, you can count on Stanley/Stella's polo range for the quality, comfort, style, and sustainable credentials you need.

Discover our versatile Prepster polo on page 60.

Endless sunset

Looking for mid-season layering options or year-round lights for warmer climates? Our Sunset Edition has you covered, with an even wider range of versatile styles in our lighter fabrics. Designed for all-day comfort and offering excellent decoration results, they're a great way to create custom garments that people will love to wear for work or play – even when temperatures rise.

Discover our new lightweight unisex Archer hoodie on page 82 and spot all our sunset styles thanks to the sun logo.

Vintage vibes

When it comes to creating an authentic, worn-in look, our lightweight vintage-inspired range offers all the choice you need. This season brings two great new styles as well as four new garment dyed colours, each full of character thanks to the unique dyeing technique. Plus, with better printability than ever, this range is an ideal way to tell a story that will be remembered.

Discover our new Matcher Vintage crew neck sweatshirt on page 66.

Indexes

Colour equivalences for SS23

In this colour equivalence table you will find the Pantone TCX, Pantone C, CMYK and RGB references for the Stanley/Stella colour range.

⚠ **IMPORTANT**

Colour equivalences between TCX and C are provided by Pantone Connect. CMYK and RGB references have been defined to match our fabric colours as accurately as possible.

Certain colours (such as heathers, dip dyes, and garment dyed colours) are difficult to translate into accurate colour references. Colour equivalence can also vary depending on the fabric type.

If you have any doubts in relation to a colour, we recommend ordering a sample.

Materials & fabrics

All the fabrics that Stanley/Stella uses are made from organic, sustainable or recycled materials to ensure that our environmental footprint is as gentle as possible – GOTS certified organic cotton, GRS recycled cotton, GRS recycled polyester and GRS recycled nylon.
While making this eco-conscious decision, we never compromise on comfort, style or functionality. Whatever the type of knit or weave – from smooth single jersey, durable piqué and cosy sweats, to plain weave and soft satin twill – we always choose our fabrics with the utmost care to ensure the best possible fit, feel and performance, as well as superior printability.

Materials

Organic materials

Organic cotton

Natural, GMO-free fibre grown without the use of chemicals. For most styles, we use combed ring-spun cotton made with long staple fibers. This gives a nice soft handfeel. For our dry range, we use a rougher carded yarn which gives a drier handfeel.

Recycled cotton

Made from pre-consumer cotton waste, including our own cutting waste. Shorter fibres are blended with higher-quality fibres like recycled polyester for accessories and non-recycled organic cotton for t-shirts and sweatshirts.

Recycled materials

Recycled polyester

Made from locally collected post-consumer PET bottles that are cleaned, shredded into pieces, melted into a liquid, and then spun into a recycled yarn.

Recycled nylon

Made from locally collected waste such as post-consumer fishing nets, carpets, and post-industrial waste. Recycled nylon has similar characteristics to recycled polyester, but has a slightly softer handfeel.

Fabrics

Knitted fabrics

Single jersey

The basic knit structure where the front side is smooth, while the back side is piled with loops.

Slub single jersey

The same as single jersey, but with slub yarn, which gives the irregular appearance.

French terry

The front side has a smooth jersey structure, while the back side has a distinct loop structure.

Wave terry

A loopback fabric, wave terry (seersucker terry) is knitted using alternating yarn tension to give a wavy, textured surface.

Sherpa

The front side of the fabric has soft, sheepskin-like pile, giving a warm, cosy feel.

Brushed

Sweatshirt fabric is called 'brushed' when the inside loops of a French terry knit are carefully brushed, for a soft, warm feel.

Piqué

Knitted using tuck stitches to create a honeycomb-like geometric structure, commonly used for polo shirts.

Interlock

This tight-knit fabric has a single jersey structure on both sides, giving a super soft handfeel and perfect printability.

1x1 rib

Single alternating wales that look identical on both sides of the fabric and offer greater stretch.

2x2 rib

Double alternating wales that offer even more elasticity than 1x1 rib.

Woven fabrics

Plain weave

The most common type of woven fabric, with yarn in a criss-cross pattern.

Canvas

Highly durable plain weave, woven with threads of different sizes.

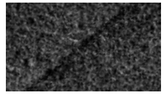
Woven outerwear fabrics

Plain weave

Polyester filament fibre densely woven with a criss-cross pattern.

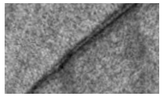
Taslan

Woven nylon fabric with a crinkled effect.



Brushed twill

Polyester staple fibre woven with a reversible twill structure. Brushed from the face side to give a wool-like appearance.



Brushed plain weave

Polyester staple fibre woven with a balanced plain weave structure. Brushed from the face side to give a wool-like appearance.

Satin twill

Polyester filament fibre woven with a diagonal twill structure to give a silky smooth surface.

Certifications

At Stanley/Stella, our supply chain is certified by various independent bodies and standards, demonstrating our commitment to healthy environmental practices and greater respect for the planet. But we don't stop there. We always go beyond certifications to increase our understanding and drive positive action for our planet and its people.

GOTS

The Global Organic Textile Standard (GOTS) is the leading worldwide standard for the production of organic fibres. Based on both ecological and social criteria, it is the most stringent certification for organic cotton. It guarantees that cotton is organically grown without the use of genetically modified seeds or dangerous chemicals. It also ensures traceability from post-harvesting of the raw material to the final customer, including transaction certificates at every stage of production.

OCS

The Organic Content Standard (OCS) is a voluntary international standard that verifies the presence and amount of organic material in a final product. It tracks the flow of the raw material from the source to the final product. This standard applies to Stanley/Stella products that have less than 70% organic cotton.

GRS

The Global Recycled Standard (GRS) is the world's leading standard for recycled textiles. The standard applies to the full supply chain and addresses traceability, environmental principles, social requirements, chemical content, and labelling. All the recycled cotton materials, recycled polyester, and recycled nylon we use is GRS certified.

OEKO-TEX

Standard 100 by OEKO-TEX ® is one of the world's best-known standards for the assessment of harmful substances in fabrics. Our certification confirms that Stanley/Stella products are processed without chemical substances that are harmful to human health and the environment. Standard 100 also prohibits certain potentially harmful substances even where these are not yet legally banned, and it guarantees that our products comply with the EU REACH regulation.

PETA

Stanley/Stella is 'PETA-Approved', which means that we do not conduct or commission any animal tests on ingredients, formulations, or finished products and pledge never to do so. Our products are made from 100% vegan materials and 0% animal fibres, ensuring that no harm is caused to animals.

Memberships

We are proud to approach the environmental and social challenges our industry faces in a collaborative way. Through our memberships of Textile Exchange and Fair Wear Foundation, we aim to reinforce the positive impact we can have across our operations.

Fair Wear Foundation

Fair Wear Foundation (FWF) is an independent organisation that works with apparel brands, garment workers and textile industry influencers to improve labour conditions in garment factories. FWF carries out audits in our partner factories on a regular basis, and establishes Corrective Action Plans (CAPs) where needed to ensure workers' rights and safe, dignified, and properly paid employment. Stanley/Stella has been a member of FWF since 2012.

Textile Exchange

Textile Exchange is a global non-profit organisation that works closely with its members to drive industry transformation in preferred fibres, integrity and standards, and responsible supply networks. Stanley/Stella participates in the annual Material Change Index survey, which maps progress towards more sustainable sourcing at the raw material level.

Colours & techniques

①

②

③

④

⑤

⑥

⑦

Our garments are available in one of the widest ranges of colours and techniques on the market, offering you a truly amazing choice – from whites, solid colours and heathers, to impactful patterns and unique garment dyeing techniques like vintage and dip dye.
The vast majority of our solid colours are fabric dyed, giving excellent shade consistency and printability. Heathers are knitted with yarn made from fibres of two or more different colours, and we are one of the few brands offering heathers in 100% organic cotton. Our vintage items are garment dyed, followed by a garment wash to create a faded effect, while dip dye styles are hand dyed for a unique look. Care labels on every garment provide clear instructions on how to keep garments looking great, wear after wear.

① Natural Raw

Untreated cotton, textured with tiny specks of the original cotton plant. Fabric finished with softener wash only.

② Solid

Garments are made using fabrics that are dyed before cutting and stitching, giving a uniform colour effect.

③ Heather

Fibre dyed, mixing two or more different-coloured fibres, spun into a yarn.

④ Vintage

After stitching, the garment is dyed, resulting in subtle colour variations. Finally, the garment is washed which gives it a faded look.

⑤ Dip dye

After stitching, the fabric-dyed garment is dipped in a colour bath.

⑥ All over printed patterns

Base colour is fabric dyed, and remaining colours of the AOP pattern are screen-printed on top of the base fabric.

⑦ Yarn dyed patterns

Dope dyed yarns of different colours are woven into fabric with a repeat check pattern. Dope dyeing uses no water during the dyeing process.

Capsule

Our Capsule collections are seasonal, launched for Spring/Summer (SS) and Autumn/Winter (AW). Designed to bring something new, they are perfect for trend-driven customers.
Capsule styles and seasonal colours stay in the collection for a limited time: SS until the end of that year; AW until the end of the following year.
